

International competition platform for teenagers

2025 Global Artificial Intelligence Robot

Singapore Station (First Stop)

GAR

Global Artificial Intelligence
Robot Opening Contest

January 17-21, 2025 | Singapore

Here is a warm corner of cultural integration, a high-quality choice for education, and a place for international students to study. People from all over the world gather here with their stories, and Eastern and Western cultures coexist harmoniously here. With GAR friends, your exploration journey will be relaxing and enjoyable, a precious time shared with friends, and a journey full of new discoveries and profound experiences!

• Climb Asia's tallest Ferris wheel

• Admire the landmark Merlion Park

• View of Gardens by the Bay

Visiting famous schools: Academic trip to Singapore

Walk into the National University of Singapore and experience the academic atmosphere and educational philosophy of a world-class university. In-depth exchanges with students and professors on campus can not only enhance knowledge, but also help understand the educational model under different cultural backgrounds and prepare for future overseas study and life.

Cultural immersion: Experience diversified life

By participating in humanistic activities in Singapore, children will have the opportunity to experience and learn about the diverse cultures here. This experience helps to cultivate children's cross-cultural understanding ability, allowing them to learn while playing, grow while traveling, and discover the fun and meaning of learning.

Winter vacation of science and technology: Participate in the robot competition

Participating in the GAR Asia Open, children will learn scientific and technological knowledge in practice and cultivate problem-solving skills. This is not only a display of skills, but also an exercise of innovative thinking and teamwork spirit.

Urban exploration: Appreciate nature and landmarks

Here, natural scenery and urban landmarks are interwoven into a vivid picture. Children will experience the beauty of nature and the magnificence of the city, and learn how to enjoy the fruits of modern civilization while protecting the environment.

International exchange: Gain friendship and confidence

With the help of the GAR Asia Open, communicate and learn with partners from different countries and make progress together. Standing on the international stage, children can showcase their talents and gain valuable self-confidence and international friendships.

Multicultural integration

Rewarding research and study

- Visiting famous schools

- Face-to-face with famous teachers

- Face-to-face communication with top students

Time: January 17-21, 2025

DAY1

Fly to Singapore, pick up at the airport

DAY2

International cultural exchange activities + pre-match training + visit to the National University of Singapore

DAY3

GAR Asia Open (Singapore)

DAY4

Singapore International Museum or Singapore Science Museum in the morning, visit Lion Park, Gardens by the Bay, Marina Bay Sands, Ferris Wheel in the afternoon (specific arrangements may be adjusted according to circumstances)

DAY5

Check out and Departure

Five-day and
four-night
itinerary

Preparation items: lunch on January 18-20; dinner on January 17-20; hotel with breakfast; city transportation (including Singapore Airport transfer); attraction tickets (if any); activity fees; competition materials (T-shirt, backpack, souvenirs, order book).

China-Europe Challenge Contest and Tour Study Moment Sharing

Wonderful sharing by robot teachers:

“The ability to learn and adapt quickly”

I deeply felt the amazing growth of children's learning ability. They not only demonstrated excellent technical operation and programming skills in the robot competition, but also showed the ability to learn and adapt quickly when facing challenges. Each child absorbed new knowledge like a sponge, applied theory to practice, and constantly optimized their solutions. Through this activity, they not only improved their personal skills, but also learned how to cooperate with others, how to communicate and learn in a multicultural environment.

Wonderful sharing from students' parents:

“Incomparable joy and pride”

As a mother, I feel great joy and pride to see my children perform in competitions and tour study activities. The children have not only made progress in technology, but also showed maturity in communication and teamwork. This experience will undoubtedly become a precious memory for him and one of my happiest moments as a mother. I feel very happy to see him show himself on such an international stage, and I firmly believe that this will lay a solid foundation for his future.

2025 Global Artificial Intelligence Robot Opening Contest and International Study Tour

Singapore Station (First Stop)

January: GAR Asia Open - Singapore Station

July: GAR China Open - Hangzhou Station

August: GAR Hong Kong and Macau Open - Macau Station

Organizer: Global Artificial Intelligence Robot Society (GARS)

Sponsor: Shanghai Nashenbot Co.,Ltd

Address: Floor 4 , Building 5 , No.600, Yunling
West Road , Putuo District ,
Shanghai,China
